Subject: Schedule for Air Sampling

Hi Jack,

Gene's availability for the week of 3/16 would be that Monday 3/16, Thursday 3/17, Friday 3/18. I think the best for us would be that Thursday 3/17 because either Dennis or myself would already be down on-site for the weekly Wednesday meeting that we will continue to be attending. It would be good to have Gene (he's the project lead for the Chemical Leak for TechLaw) on the conference call since he is also experienced with flow rates and sampling methodologies.

Thanks,

Melissa
